#### ***President's Message:***

My wife and I have just returned from a long weekend at our Apollo Park timeshare and I am happy to say that the Vail area has changed. To start with, the construction in LionsHead appears to be almost finished. New restaurants and shops have opened along with some of the existing shops that were closed during construction. The area has definitely taken on a European look.

Closer to home, the construction next to Apollo Park is scheduled to be completed by early December 2008. With the completion of this project, the temporary steps between A and B buildings will be removed and we will use new heated steps that will be accessed between our B building and the new Mountain View resort to our west. We have been assured that the temporary steps will not be removed until the new steps have been finished and approved for our use.

On our side of the property line, our pool is open with new furniture, the sod laid last fall is greening up, and the flowering plants and trees are blossoming. In general the whole outside has a new and updated look. We still have a to-do list and continue working on various projects inside and out as time and money permit.

Another change is that we are going to put the semi-annual newsletter on our Web site. There are two reasons for this decision. The first is that the newsletter has steadily grown in size and with the price of postage and printing, the costs have gone up. The other is that trying to get the newsletter and the semi-annual billing done at the same time was becoming a coordination nightmare. So in keeping with the times, Anne Nelson has been working with a webmaster to put the newsletter on our Web site. We are mailing this President's letter, but for-sale, trade and for-rent ads, and other information can be found at [www.vailtimeshare.com](http://www.vailtimeshare.com). You will see a link to the newsletter on the homepage. For those of you without Internet access, we will continue to provide a hardcopy of the newsletter. Just call Anne at 303-690-6038 or include a note with your payment to request a copy.

One of the major topics of discussion at the last Annual Meeting was the Ground Lease and the upcoming opportunity to purchase the land that Apollo Park sits on. The Board has exchanged numerous e-mails and phone calls on this subject and been in contact with our attorney. The good news in this is that we have started the process early enough that we are not under pressure to rush through the necessary steps. A letter to owners is enclosed. Be sure to read it carefully so you are aware of what is needed from you. This will be a topic of discussion at the next Annual Meeting, scheduled for October 25, 2008, and the Board will continue to keep all owners informed of progress as we move forward.

As always, Anne Nelson and the Board appreciate the phone calls and e-mails with suggestions and comments about how we are doing. We do review these comments and make every attempt to correct problems or implement your suggestions. Please keep the phone calls and e-mails coming.

If I can be of service to any of you, please feel free to contact either Becky or myself. Our home phone number and e-mail address are listed below.

## **VAIL SEEKS TO INCREASE SUMMER PARKING**

(Vail)—The Town of Vail is implementing summer parking management strategies intended to ensure adequate parking for guests while providing equitable parking opportunities for Vail residents, merchants and employees. While parking is free in the Vail Village and LionsHead parking structures during the summer, beginning June 25, the town will set aside all 226 spaces on the top deck of the Village structure until 10 a.m. each morning to allow visitors and later-arriving employees access to parking. The experimental program will take place 7 days a week with the exception of July 4. The program was recommended by the Vail Parking Task Force and will be evaluated at its next meeting on July 28. Staff has also begun increased enforcement of parking violations in both structures. Patrols will be issuing warnings and tickets to vehicles parked over the white line and taking up multiple spaces, as well as oversized vehicles.

Vail contractors, employees and merchants are asked to park on the north side of the Vail Village and LionsHead parking structures to allow visitors access to close-in spaces on the south side. Employees are also encouraged to utilize Vail's free in-town bus system and ECO Transit's valley-wide system. Visit [www.vailgov.com](http://www.vailgov.com) or [www.eaglecounty.us](http://www.eaglecounty.us) for schedules.

For more information on the town's parking programs, contact Parking and Transit Manager Mike Rose at 479-2349.

(Vail)—A recommendation that would add as many as 550 parking spaces to Vail's current inventory of 2,815 spaces will be presented to the Vail Town Council at its regular evening meeting on July 1.

Tuesday's discussion also includes recommendations by the Vail Parking Task Force for additional mass transit options. The seven-member group has been assigned by the Town Council to work with Vail Resorts, Inc., in developing options to address potential parking impacts related to the new Epic Season Pass which was announced in March. The pass will offer unlimited and unrestricted use for the 2008-09 ski and snowboard season at Vail and VRI's other resorts. The goal of the task force has been to identify expanded parking options and additional transportation management strategies to limit the number of overflow parking days on the frontage roads in Vail to 15 days during the upcoming winter season.

Recommended parking space additions to be reviewed Tuesday by the Town Council include:

- Temporary use of the town-owned Chamonix property in West Vail, 180 spaces; requires review by the Town of Vail.
- Use of the west side of the North Frontage Road, Wendy's to Chamonix, 35-60 spaces; requires review by the Colorado Department of Transportation.
- Limited use of Donovan Park lot during non-event days (39 last season), 70 to 90 spaces.
- Park and ride TBD in Avon, 100 spaces.
- Park and ride at U.S. Forest Service office lot in Dowd Junction, 50-75 spaces.

In addition, the following spaces will be available this coming season:

- Vail Front Door/Vail Village Club, 100 spaces.
- Arrabelle Club parking, 100 spaces.

The Parking Task Force is also recommending increases in mass transit to service the park-and-ride lots as well as increased bus service to accommodate the suggested expansion of parking in West Vail. Also, they have recommended six designated bus stops along the South Frontage Road during peak times. Introduction of a privately-managed van pool service for commuters is in the works, as well as a recommendation to allow private parking lots to be used for peak period public parking.

Public comments may be forwarded to the Town Council in advance of Tuesday's parking discussion by contacting the council's voice mail at 479-1860, ext. 8, or e-mail [towncouncil@vailgov.com](mailto:towncouncil@vailgov.com). Recommendations on winter parking rates will be reviewed by the Town Council at a future meeting.
